

At Sovex, we have a world of experience in design and manufacturing, as well as expertise in servicing and maintenance, enabling us to work efficiently for all our customers. Material Handling and Storage Equipment are our speciality.

Founded in 2002, with over 50 years experience within our team, our company has developed to offer a unique, comprehensive approach for all of our products – from design and manufacture, right through to after-sales servicing and maintenance. We also offer the facility to lease our machines without having to refer you to a credit middle man. Sovex look after you – all the way.

Based in our modern warehouse facilities – spanning some 20,000 square feet where we design, develop and manufacture our machinery – at Sovex we are proud of what we do.

We offer experience and expertise which is second to none in our field, supplying and supporting companies with an extensive range of equipment relating to the handling and storage of goods. We pride ourselves on tailoring our solutions to meet your company's individual needs.

Sovex

a world of experience in design,
manufacture and maintenance

OUR SPECIALIST SERVICES INCLUDE:

Vehicle Loading and Unloading

At Sovex, we have continually redeveloped and improved our Telescopic Vehicle Loader to ensure we offer the best possible solution for handling high volumes of raw materials and finished goods between the building and the vehicle.

Conveyor Systems

We offer a comprehensive range of conveyor systems: from static to fully mobile and from belt driven to gravity roller, including both lineshaft and belt driven roller systems. We have worked hard to ensure that we can provide the ideal solution to a wide range of material handling situations, whilst maintaining complete integration of all our vehicle loaders and conveyor systems.

Automated Storage Systems

We supply, install and maintain a range of Vertical Carousel Filing Systems to maximise the use of space and special ventilated storage systems for safe storage of sensitive items and food.

Service & Maintenance

We firmly believe in ensuring that your Sovex machine is in perfect working order at all times, which is why we have a team of specialist engineers to support all products supplied by Sovex, as well as all of your existing material handling equipment. We offer free site surveys on your existing equipment, including a full report on the condition of your machine and any recommendations.

Hire Fleet

Hiring equipment is a cost-effective way of meeting any seasonal or peak demands that your company may deal with. We offer short and long term hire of static and mobile conveyors with the added option to buy at the end of your term. Service and maintenance of your machine together with technical support is also offered in our lease packages.

OUR CLIENT BASE

At Sovex we are proud of our growth and, as we have grown, so has our client base and our reputation for first rate customer service.

As a company we strive for excellence in client care, placing utmost value on each one of our customers. We enjoy working together in close partnership with our customers in order to tailor unique solutions to fit individual company needs.
